

Senior Project & Solutions Analyst

Location: Roanoke, VA (On-site / Hybrid)

Reports To: Head of Operations

About More Better Technology

At More Better Technology (MBT), we're not just consultants—we're pioneers in transforming the way businesses achieve their biggest goals. Our team thrives on innovation, using cutting-edge strategies and technical solutions to drive remarkable results for a diverse range of clients. By joining MBT, you become part of a dynamic environment that champions growth and forward-thinking. Our key services—Project-Led Transformation (PLTX), DevOps-Led Modernization (DevOpsMX), and Application Modernization (AppMX) equip companies to tackle complex challenges and reach new heights. Here, you'll find the freedom to make an impact, explore your potential, and contribute to groundbreaking projects that shape the future of technology-driven transformation.

Position Summary

Are you ready to lead technology-driven projects and craft solutions that simplify and enhance business operations? More Better Technology is looking for a skilled Senior Project & Solutions Analyst to plan, coordinate, and drive initiatives from concept to execution. Diverse experience matters in this role, and we are looking for someone who is ready to apply best practices, knowledge, and creative vision for transformative solutions.

Key Responsibilities:

- **Project Leadership:** Define and guide project scope, milestones, timelines, and budgets with stakeholders and teams.
- **Solutions Development:** Act as a bridge between business needs and IT solutions, translating requirements into actionable tasks with ability to manage backlog.
- **Business Analysis:** Document user requirements, assess current processes, and recommend improvements that maximize efficiency.
- **Stakeholder Collaboration:** Engage with team members, stakeholders, and clients to ensure clarity and alignment on project goals and deliverables.
- **Project Execution:** Oversee project activities, manage risks, resolve issues, and keep projects on track within budget.
- **Documentation & Reporting:** Create functional specifications, process flows, and reports to ensure clarity, consistency, and efficiency.

Qualifications:

- Bachelor's degree in a relevant field; PMP, CBAP, SCRUM, or Agile certifications are a plus.
- 5+ years as an analyst, project manager, or some combination of these experiences.

- SCRUM experience facilitating Agile ceremonies and supporting teams to meet sprint goals and project outcomes.
- Strong business analysis skills with experience in process optimization, data analysis, and visualization tools (e.g., Power BI, Excel, Draw.io). Experience in generating insights to support strategic initiatives.
- Technical acumen with familiarity with project management methodologies, DevOps practices, and application modernization processes. Familiarity with project management tools like Microsoft Teams, ClickUp, and Smartsheet.
- Excellent communicator and problem-solver with a focus on practical, customer-centered solutions.
- Willingness to visit clients in person to collaborate.

What We Offer

- A collaborative and inclusive work environment with opportunities for growth including a local office in Roanoke VA.
- Hands-on experience in high-impact IT transformation projects for industry-leading clients.
- Competitive salary, health benefits, 401K, generous Flex / PTO time, and opportunities for professional development.

This role provides a unique opportunity to directly contribute to transformative projects within a fast-paced and rewarding consulting environment. If you're ready to leverage your experience and skills to work alongside a passionate team, we'd love to hear from you! More Better Technology is an equal opportunity employer.

Please submit your cover letter and resume for consideration to the job posting to the [TriNet platform](#) or contact will.farmer@morebetter.technology.
